

# FEEDERS

## PRECISE AND RELIABLE DOSING MADE SIMPLE.

### 01 Automatic and Accurate Dosing.

Get all your Gravimetric and Volumetric weighing needs met with our comprehensive range of weighing scales, loadcells, and control boxes.

### 02 Low Maintenance.

These feeders have a minimal number of moving parts, making them incredibly reliable and hassle-free.

### 03 Seamless Integration.

Crafted from solid steel tube frames, our product offers unmatched stability for seamless integration into larger systems.

PosiPortion™

- Unique Flexible Wall Hopper technology keeps dry raw materials continuously moving to prevent ratholing and bridging.
- Minimize material degradation, segregation, or agglomerations with external paddle agitators.
- Easy to clean due to detachable components.
- Excellent price-performance ratio.

U-Trough

- Heavy-duty design allows for operation in harsh conditions.
- Delivers material consistently regardless of material type.
- Custom sizing allows equipment to be shoehorned into tight spaces.
- Multiple types of internal agitation to maximize performance.

## Options

### Auger Options

From standard straight nozzles, T-nozzles, nozzles with screw support bearing and elongated distribution nozzles for a variety of metering.

### Extension Hoppers

Increase the content of your feeder up to six times. Feeder can also be installed under a bulk bag unloader for greater capacities.

### Flexible Wall Hopper

For an array of specifications including high temperatures, FDA certified, and Anti-static.

### Distribution Nozzles

Engineered for seasoning applications.

### Platform Scale

Provides immediate feedback that material was delivered.

Ask about our free material testing!

Hapman offers a complete line of material handling equipment that easily integrates into existing systems, including:

- Flexible Screw Conveyors
- Tubular Drag Conveyors
- Vacuum Conveyors
- Feeders
- Bulk Bag Unloaders
- Bulk Bag Fillers
- Bag Dump Stations
- Lump Breakers
- And More
