

LUMPMASTER®

BREAK DOWN LUMPS INTO CONVEYABLE DIMENSIONS.

01 Low Profile Design.

Easily integrates into your existing or new feeding system.

02 Reduce Lumps.

Gear-driven, counter rotating finger shafts and side combs claw through compacted material and agglomerations.

03 Durable.

Heavy-duty construction delivers years of trouble-free use.

- Low speed, high torque design breaks down lumps into conveyable dimensions.
- Impacting fingers break lumps into 3/4" size pieces.
- Compact, low-profile design offers more inline installation options including under unloading equipment or at the discharge point of storage silos or containers.
- Available in three sizes. Choose from 12, 18 or 24 inch models.
- Choose from carbon steel, 304 stainless steel or 316 stainless steel.

Hapman offers a complete line of material handling equipment that easily integrates into existing systems, including:

- Flexible Screw Conveyors
- Tubular Drag Conveyors
- Vacuum Conveyors
